

Management System Policy

Quality, Environment & Health and Safety

Idrica is an international company that provides a unique differential value based on experience in digital transformation and knowledge of the management of the integral water cycle.

Our values of transparency, safety team and sustainability together with the Quality of our GoAigua software product, and our large experience of water issues are the basis of our company's business strategy. It guides us to undertake actions with the purpose of promoting efficiency in organizations in the water sector, accompanying them in their digital transformation.

Our Policy summarizes the commitments shared by all members of our company:

1. Create value through our constant challenge in the search for continuous improvement of our management system, to prevent incidents related to the quality and / or safety of the product and / or service, for the preservation of the environment and to guarantee the safety and health of the people who carry out their activity in and for our organization, eliminating hazards and reducing risks.
1. Stimulate the personal and professional growth of our staff, promoting individual respect, maximizing teamwork and ensuring the consultation and participation of workers in relation to safety and health at work.
1. Promote the commitment to Quality, the Environment and the Health and Safety of our employees with the aim of designing, developing and providing secure products and services, adapted to the needs of our customers and users, which allow efficiency in the responsible use of resources with the least environmental impact.
1. Comply with applicable business, legal and regulatory requirements, in particular those derived from our business activity.

At Idrica, teamwork, engagement, and support from all is vital to achieving our goals. In this context, we are committed to providing the necessary leadership, support and resources and ensuring that the Policy is reviewed annually and communicated to employees and third parties.
